# SMALL BUS. BIG IDEAS.

---

Built to safely and reliably transport 14-30 students, the BE Series school bus from IC Bus is the perfect small bus. Perfect because it was built on big ideas based on what you need in a bus. Big ideas like integrating the body, chassis and engine. Big ideas like not building it on a van platform like other small buses. And big ideas like building it for a 12-year life instead of a 7-year life like typical Type A buses. And it's even backed by a big time warranty. Add to all this: full power hydraulic brakes with ABS and ATC, a MaxxForce® 7 engine and an Allison 1000 PTS transmission, and you'll find that IC Bus has its customers in mind by using big thinking to make the best small bus on the road.

For more information about our BE Series school bus or to locate the nearest IC Bus dealer, call 1.800.892.7761 or go to [ICBus.com](http://ICBus.com)

# THE BE SERIES SCHOOL BUS

## WHEEL BASE

158"
